IBM

Visual designer for Cloud Pak for Data System
Currently a visual designer on a cross-functional hybrid cloud product team. Responsibilities include aiding design team in research and enterprise design thinking activities in order to plan and design enhancements to our product. Individually responsible for creating high fidelity designs of our deliverables, creating our deliverable specs for development, tracking deliverables implementation, and maintaining transparency and alignment across the other products on our portfolio.

IBM

Visual designer intern for Maximo Enterprise Asset Management
Worked on a team of visual designers, UX designers, and researchers to conduct research and modernize an IBM Enterprise Asset Management application. Designed screens in Sketch and prototyped them in InVision for desktop, mobile, and tablet. Participated in meetings with fellow designers, offering managers, and architects to align on project goals.

Random Logic Games

Motion design intern
Created and animated social media advertisements for app games which included recorded gameplay, original illustrations and animations, and pre-made animations.

Payscape

Graphic design intern + freelance motion designer
Designed in-house marketing materials such as trade show banners and Ebooks. Filmed, edited, and animated training and promotional videos using Adobe Premiere Pro and After Effects. Animated icons for Payscape's website using HTML and CSS.

Auburn Recreation & Wellness Center

Designer, photographer, videographer, & writer
Created promotional materials including graphics, social media videos, signage, and more. Photographed events and material for The Rec's blog, Be Well. Videoed and edited YouTube series 'Round the Rec. Wrote articles relevant to college students for Be Well.
